

You are using the

ActivTapp™

ACTIVATED OXYGEN FAUCET

The ActivTapp faucet combines normal tap water with activated-oxygen (ozone) producing a natural, powerful disinfectant in seconds!

REDUCES bacteria, pesticides, and viruses found on fruits, vegetables, seafood, poultry, and meat, keeping food fresh, retain its color and flavor longer.

DISINFECTS sinks, counter tops, cutting boards, wash clothes, reuseable water bottles, and sponges, reducing mold and mildew.

NOTE: Ozone has been approved by the **USDA** and **FDA**. It has been widely accepted in the food industry for disinfection to give a higher level of assurance against pathogenic organisms, like *Clostridium difficile*, *E. Coli*, *Salmonella*, and *Staphylococcus Aureus*.

WE RECOMMEND THAT YOU DO NOT DRINK OZONATED WATER
