

EcoTex₃ | OZONE LAUNDRY LINE

ENERGY EFFICIENT & QUICK RETURN-ON-INVESTMENT

STARTS SAVING YOU MONEY THE MINUTE YOU TURN IT ON!

Retrofit one of our EcoTex cold-water washing systems to your existing commercial on-premise washer or our Point-of-Entry (POE) system to your coin-op facility and let the savings begin.

EcoTex Series of disinfection systems provide eco-friendly laundry technology that turns cold water into activated oxygen, nature's safest, most effective, disinfecting agent reducing energy consumption, water use, cycle times, chemical use, and extends fabric life. Linens are cleaner, softer, and fresher smelling and your staff will enjoy more comfortable laundry room temperatures, and a cleaner smelling environment, while you enjoy a quick ROI.

- SUPERIOR WASH QUALITY
- ROI IN 8-18 MONTHS
- COLD WATER WASH
- REDUCE HOT WATER ENERGY
- REDUCE WATER
- REDUCE CHEMICAL USE
