

EcoTex₃

The Cold Water Catalyst

THE MOST EFFECTIVE AND NATURAL DISINFECTION METHOD FOR DAMAGED FABRICS

Clean, Disinfect, and Eliminate Odors Effectively, and Safely with **EcoTex**

EcoTex ozone disinfection systems turn cold-water into nature's safest, most effective disinfecting agent, effectively destroying contaminants on fabrics that have been damaged by smoke, water, fire, or mildew. At the same time, reducing energy consumption, water use, cycle times, chemical use, and extending fabric life.

- Eradicates soil, microbes & odor
- Less rinsing, less drying
- Reduced hot water consumption
- Reduced energy costs
- Extended linen life
- Produced on-site
- Improved operational efficiencies
- Reduced effluent waste water
- Improved laundry room quality
- Works with most washers

.....

The Centers for Medicare, Medicaid Services, and the CDC, have recognized ozone cleaning systems for use in laundry sanitation

ALL SYSTEMS ARE THIRD PARTY
TESTED AND CERTIFIED
